

CLP & LUBRICATION GUIDE

Family-owned and operated since 1982,
the worlds #1 American-made
firearms cleaning components!

**FIREARMS CLEANING IS OUR PASSION,
SERVICE IS OUR SPECIALTY!**

Product	Cleaner	Degreaser	Lubricant	Preservative	Lead	Carbon	Copper	Plastic	Recommended Use
1-Step CLP									General maintenance of pistol, rifle, shotgun, and black powder firearms
1 Step BIO Mil-Spec CLP									Cleaning and lubrication of tactical firearms, especially in extreme weather conditions
NXT CLP									Cleaning and lubrication of firearms when a non-toxic, more environmentally friendly option is preferred
Zero-Friction Lubricant									Best option for metal-to-metal lubrication and extreme temperature fluctuation
Bio 4X LP Gun Oil									Best option for air gun cleaning and lubrication. Non-toxic and biodegradable lubricant
Pro-Gold Lubricant									Use on bolts, hinge pins, slides, or any metal-to-metal surface in above freezing temperatures
Choke Tube and Suppressor Thread Lubricant									Superior anti-seize protection for suppressor threads, choke tubes, and breech plugs from seizing, galling, corrosion, and wear in high-heat/pressure applications
Dry Lube									Quick and easy grease-free lubrication and protection from dust and debris in extreme field conditions
High North® Arctic Weather Lubrication Balm									Non-toxic, non-staining, polymer-safe lubricant specially designed to perform in extremely cold temperatures
Pro-Clean #1 Gun Cleaner									Penetrates and conditions metal surfaces to clean and break down stubborn fouling of all types
Pro-Clean Suppressor Cleaner									Ideal solution for maintaining a clean, efficient suppressor with minimal effort
Copper Solvent									Ammonia-free bore cleaner specially engineered to attack and remove copper and powder fouling while providing rust and corrosion protection
Fouling Blaster									Synthetic, fast-drying spray cleaner and degreaser that quickly evaporates and blasts away fouling, solving most malfunction issues
Rust Guardit									Prevents rust and corrosion by adding protective layer resistant to moisture. Excellent for everyday carry pistols and firearm storage
Black Magic Gun Bluing									Specialized finish-restoration solution used for touching up worn or scratched steel to a like-new finish

1-Step CLP

- 3 in 1 CLP (cleans, lubricates, protects) best used for general maintenance of pistol, rifle, shotgun, and black powder firearms.
- Excellent cleaner for copper, lead, plastic, and primer fouling
- Advanced rust inhibitors penetrate the metal to provide a corrosion barrier for superior rust protection.
- Superior proprietary formula is based on a unique blend of non-hazardous and bio-friendly ingredients.

1 Step BIO Mil-Spec CLP #MIL-PRF-63460G

- Currently in use with the U.S. Military and NATO
- DOD tested and approved, U.S. Military/NATO approved, ARDEC tested
- Based on high quality synthetic oil, containing anti-corrosion and anti-wear additives
- Excellent cleaner and lubricant for tactical firearms shooting and for use in extreme environments including cold, wet, heat, and rapid-fire small arms up to 40mm
- Operating temp: -51°C to +71°C (-60°F to +160°F). Withstands temps from -54°C to +150°C (-65°F to +302°F)

NXT CLP®

- Pro-Shot's Next Level CLP – Biosafe formula excellent for cleaning and lubrication
- Safe to use on factory finishes and polymer frame firearms
- Non-toxic, no odor, non-flammable, non-staining on clothes
- USDA Certified Biobased Product 70%
- Safe for use indoors and around pets and children

Zero-Friction Lubricant

- Full synthetic base with anti-oxidant additive to extend life and usage of lubricant
- Excellent for lubrication in extreme temperatures and pressure
- Rust and corrosion inhibitors for short term protection and storage
- Excellent for metal-to-metal application – firearms, knives, tools

Bio 4X LP Gun Oil

- Non-toxic, biodegradable, and odor-free lubricant and preservative
- Excellent and best for air gun cleaning and lubrication
- Four times as lubricious as petroleum-based lubricants
- Made from renewable USA grown crop-based vegetable oils
- Excellent for rust/corrosion protection in wet environments and for short-term storage.
- Operating temp: -40°C to +310°C (-40°F to +590°F)

Pro-Gold Lubricant

- Lubrication grease for firearms: use on bolts, hinge pins, slides, or any metal-to-metal surface in above freezing temperatures.
- Excellent on stainless, chrome-moly, nickel, and blued firearms
- Reduces friction and does not break down in extreme heat conditions and rapid firing
- Operating temp: -17.8°C to +260°C (0°F to +500°F)

Choke Tube and Suppressor Thread Lubricant

- Anti-seize formula in precision syringe engineered specifically for choke tubes, suppressor threads, breech plugs, and other high-heat threaded components
- Extreme-pressure and high-temperature additives create a durable barrier to help prevent thread seizure, galling, carbon lock, corrosion, and excessive wear caused by heat, fouling, and moisture.

Dry Lube

- Dries quickly to leave behind a non-greasy protective film that lubricates without attracting dirt, dust, or debris, making it ideal for dusty, sandy, hot, and cold conditions
- Penetrates deep into moving parts and tight spaces to reduce friction and minimize wear

High North® Arctic Weather Lubrication Balm

- Non-toxic, polymer safe, non-staining, and water resistant lubricant designed for use on bolts, slides, or any metal-to-metal lubrication points in extreme cold weather.
- Operating temp: -67°C to +215°C (-90° to +420°F)

Pro-Clean #1 Gun Cleaner

- Biodegradable, non-toxic, and synthetic-safe cleaner and degreaser
- Removes carbon, firing residue, oil, grease, powder, lead, and copper fouling
- Deep-cleans down to the pores of the metal and conditions it to resist future fouling buildup
- Re-lubrication needed after use

Pro-Clean Suppressor Cleaner

- Deep Cleaning Action: Penetrates deep into metal pores of suppressors to dissolve carbon, lead, copper fouling, and firing residue. Regular use helps prevent future buildup.
- User-Safe Formula: Non-toxic and safe for both the user and suppressor materials.

Copper Solvent

- Excellent for removal of jacketed bullet fouling, primer, and powder fouling
- Utilizes positive charged ions with activated cleaning additives
- Safe, ammonia-free, next-generation formula includes rust and corrosion protection

Fouling Blaster

- Fast-drying synthetic safe cleaner and degreaser with Dual Spray System that quickly evaporates and blasts away fouling, solving most malfunction issues
- Strips metal of all lubrication and cleans. Re-lubrication needed after use on metal-to-metal parts.
- Safe for most surfaces such as plastic, wood, laminates, composites, rubber grips, and even camo finishes.

Rust Guardit

- Adds a protective layer to metal, protecting from rust and corrosion created by rain, sleet, snow, humidity, and all other types of moisture that threaten firearms in the safe and in the field
- Excellent for everyday carry (EDC) pistols and firearm storage protection.

Black Magic Gun Bluing Solution

- Premier, high performance cold bluing solution previously available only to gunsmiths
- Produces a deep, penetrating action to restore worn or scratched gun metal to a like-new finish
- Packaged in a container with a child-resistant cap and easy-to-follow instructions
